FRANK McPARLAND, Proprietor

AN HISTORICAL MUSEUM.

There are many rare collections of New Zealand bird and animal life in our museums, but it is doubtful if a more interesting variety can be found than that possessed by Mr. Frank McParland at the Tramway Hotel, from the extinct Moa Bones to the fast-disappearing Huia Bird. A visitor might almost imagine that he is in a museum for art collections only. It would take pages of this itinerary to itemise this splendid array of art and treasure, which has taken Mr. McParland years to collect. An open invitation is always the motto of this popular boniface. Visitors should not fail to call, where courtesy and consideration is always shown.

New Zealand Marble!

THE Beautiful Marble that is used throughout the new Parliament Buildings is quarried at Kairuru, near Sandy Bay, Nelson, and is exceptionally superior in both quality and colour. The same marble is used for the new State Fire Insurance Building in Wellington, the New Zealand Insurance Building in Auckland and a number of other important structures in the larger cities.

Of especial value for
WAR MEMORIALS and
MONUMENTAL WORK.

PASSENGER FARES AND REGULATIONS.

All tickets issued shall be subject to the By-laws and regulations of the Railway Department, and must be surrendered on date of expiry and at other times when demanded by any railway officer. Tickets not surrendered on date of expiry shall be given up at any time thereafter on demand being made by any railway officer.

ORDINARY TICKETS.

1. Ordinary tickets are to be obtained at the booking-office at stations where there are officers in charge; at flag stations, where there are no officers in charge, they are to be obtained from the guard of the train. They are available as under:—

Distances.	Issued.	Available.
RETURN.		
1 to 10 miles	Daily	Up to and including the day after issue.
	On Saturdays	From Saturday till following Monday.
Over 10 to 100 miles ...	Daily	For one month including date of issue.*
SINGLE.		
1 to 20 miles	Daily	Date of issue only.
Over 20 miles	Daily	For four days including date of issue.

*That is to say, from the 15th of one month to the 15th, inclusive, of the following month. But in all cases return tickets issued on the last day of any month are available only up to and including the last day of the following month—thus, a ticket for 50 miles issued on the 31st January is available only up to and including the 28th (or in leap year the 29th), being the last day of February.

The currency of tickets will terminate at 12 o'clock midnight.

In all cases the journey must be commenced on date of issue—i.e., on date stamped on ticket—and completed on or before the date on which the ticket expires.

Break of Journey—Single or Return tickets for distances of 10 miles and under are not available for break of journey. Passengers holding Single or Return tickets for distances over 10 miles may break the journey at any station at which the train is timed to stop after travelling 10 miles from the original starting-station; but in the case of Single tickets for distances of 20 miles and under the journey must be completed on the date of issue.

The Devenport Steam Ferry Company Ltd.

S.S. "PEREGRINE."

TOURISTS in visiting the Auckland Province would be guilty of a waste of good opportunity in failing to visit the Northern Shores of the Waitemata Harbour. Undoubtedly the one spot that will best repay a visit is Devonport, with the well-known Cheltenham Beach as the special "Mecca" for the seeker after good things. Other beaches in Devonport, such as Narrow Neck and Stanley Bay, would certainly not be overlooked by those who desire the beautiful.

The Ferry Service to these places, also to St. Helier's Bay, Kohimarama, Birkenhead and Northcote, is a very efficient one. Well-appointed screw steamers make frequent trips to each of the places mentioned, and for a steamer to fail to land its passengers at the appointed time is of very rare occurrence.

It frequently happens that tourists from the South arrive in Auckland for a visit, and after a short time the beauty of the Waitemata takes hold of them, and from that time the southern place of residence ceases to have any further attraction.

Having decided to make Auckland District their home, their first consideration is the place of residence. Either the tram or steamer is necessary in these days to transport the newly-arrived settler to and from his home. After considering the various reasons for and against these modes of transit it can be assumed that the steamer is decided upon as being very much the cheaper and more pleasant method of reaching home after a strenuous day's work.

For the sum of £6/17/6 an annual ticket can be purchased for husband and wife, which allows of an unlimited number of trips during the currency of the ticket, and this works out at the rate of 4½d. per day for the **two** passengers, with the right to travel as many times during the day as desired.

This is, without question, the cheapest travelling in New Zealand, if not in the British Empire.

Further, in considering the question of the mode of travelling, an intending passenger can be perfectly sure that, subject to being in time to catch the steamer, he will obtain a seat on **that** steamer and not have to wait for another and later one owing to the crush of passengers during the busy hours.

Contrast this with the rush and scurry in Queen Street, Auckland, or any other large city, say, at 5 p.m. on any evening of the week, and it will be readily admitted that steamer travelling is far away the most pleasant method.

New Zealand Made All Wool

TRAVELLING RUGS

NEW ZEALANDERS are justifiably proud of their Travelling Rugs. We do not know of any other country in the world that produces such rich, thick, beautiful Travelling Rugs as New Zealand.

New Zealand Travelling Rugs are world-famous. Their artistic designs and thick all wool texture and wonderful wearing qualities make them extremely appropriate as souvenirs. Many tourists choose a N.Z. Rug for a souvenir. When you are in Auckland, accept our cordial invitation to visit our large up-to-date establishment.

Healthful Helensville!

38 MILES BY RAIL FROM AUCKLAND.

THE HELENSVILLE HOT SPRINGS are artesian waters rising through a rich alluvial flat, and while there are none of the disturbing volcanic phenomena here which are so common to Rotorua country, the waters from a medicinal or therapeutical point are equally valuable, and in certain cases specially so. The Helensville water is almost identical with that of Hanmer Springs, which is to the South Island what Rotorua is to the North Island. "From an analysis of the water it will be seen that it closely resembles the alkaline sulphuretted waters of the Rachel type, but contains much less silica. While it thereby loses somewhat of the bland, silky properties of the bathing waters of Rotorua, it is distinctly better for internal administration, and, indeed, approximates more closely to some of the most celebrated European waters of its type."

The temperature of the water at Hanmer varies from 100 deg. to 118 deg. Fahr. The Helensville waters are hotter, ranging up to 140 deg.. To the taste the waters at Hanmer and Helensville are almost identically the same, the flavour being that of mild chicken broth with a slight "bouquet" of sulphuretted hydrogen. Helensville water is crystal clear, and taken hot makes a most valuable drinking water. It is one of the most efficacious waters in the Dominion for cleansing the system; taken copiously it will eliminate from one's blood the uric acid and other poisons which cause rheumatism and the hundred and other ills which flesh is heir to. The dyspeptic, the man with a liver, and the martyr to rheumatism will find this water one of the best in the Dominion, for it is equally good as a drinking or bathing water.

Ascent of Mounts Ruapehu (9,175ft.), Ngauruhoe (7,515ft.), and Tongariro (6,458ft.).

These mountains can be approached from either Raurimu, Waimarino, Ohakune, Ranganui, Karioi, or Waiouru Stations on the Main Trunk Railway Line, or from Lake Taupo.

(1) **FROM WAIMARINO STATION:** Leave Waimarino and follow the Tokaanu road for 5½ miles, where a signpost shows the turn-off to a cart track on the right-hand side. Follow this for 4½ miles, to the Whakapapa huts, 3,750ft. above sea-level. Motors may be taken to the turn-off, from which point the track is rough and it is usual to walk on to the huts, while a cart follows with the luggage. There are several rooms in the huts, with a total of 34 bunks, and tents are also kept for use if necessary. Provisions, blankets, etc., must be brought, or obtained from the nearest township (Raurimu), or from the boarding-house in Waimarino. Skis, ice-axes and mountaineering ropes are kept at these huts. From Whakapapa ascents can be made of Ruapehu, Ngauruhoe, Tongariro, and Hauhungatahi, each climb usually taking a day, though Ngauruhoe and Tongariro may both be done in one long day by experienced mountaineers. Fine weather is necessary for the climbs, but there are numerous trips through bush and tussock country to gorges, lakes and waterfalls, which may be done on days not suitable for climbing. There are several routes up Mt Ruapehu, the usual one being up the Whakapapa Glacier, but the ascent may be made by one of the rock ridges if desired. Experienced mountaineers will find good rock-climbing on the Pinnacle Ridge, about 3 miles from Whakapapa, and may also make winter ascents of all the mountains. Good skiing may be had near the huts in winter; also in summer on the Whakapapa Glacier, 3,000ft. above the huts.

Tracks lead up the lower slopes of Ruapehu, and towards Ngauruhoe and Tongariro, and there is a small hut at Mangatepopo, 8 miles from Whakapapa, where a night may be spent if desired when doing Tongariro. Kerosene should be taken for cooking in this hut. Other huts are the Haunted Whare, 2 miles below Whakapapa; the Waihohonu Hut, on the east of the mountains; and Ketetahi Hut, on the north.

Applications for accommodation in the various huts should be made to the Caretaker, Tongariro National Park, Waimarino, who will also supply any further information required.

(2) **FROM LAKE TAUPO**—The mail cars to Waimarino pass the turn-off to Whakapapa, whence proceed as directed above. For Waihohonu Hut motors can be taken to the Ohinepango Ford, from which point it is necessary to walk up 3 miles and carry all luggage. Ketetahi Hut may be reached from Otuhou Native Settlement, half-way between Lake Taupo and Waimarino, horses being obtained there from the natives.

(3) **FROM OHAKUNE STATION.**—There is a track leading through heavy forest for about 10 miles to a hut on the south-west slopes of Ruapehu, at an altitude of 4,550ft. The hut contains 3 rooms, with 22 bunks. The ascent of Ruapehu and return to Ohakune can be accomplished in a day and a half. Provisions, blankets, horses, etc., are obtainable in Ohakune.

PROTECTED NATIVE BIRDS AND GAME.

The Animals Protection and Game Act, 1921-22, makes provision for the absolute protection of birds, mammalia, reptiles and amphibia, and contains in the First Schedule of the Act a full list of those so protected.

The Second and Third Schedules of the Act contain lists of imported game and Native game respectively, but only the game mentioned in the notification fixing an open season may be taken or killed in any district. The notification is published in the "New Zealand Gazette." No imported or Native game may be taken or killed in any sanctuary, or on any public domain or land excepted from the operation of the notification declaring an open season.

The Act makes provision that no person shall take or kill either imported game or Native game unless he is the holder of a license, power being given to fix the license-fee in each case. The amount of such fee is indicated in the notification in respect of each district, and is £1 for imported and Native game; £1 where imported game only is authorised to be taken or killed, and 10/- where Native game only is authorised to be taken or killed.

No imported or Native game shall be trapped or taken by any other means than hunting or shooting, nor shall any swivel gun or pump gun, or gun other than a shoulder gun, be used; nor shall any silencer be used on any gun. No person shall use any cylinder for the purpose of taking or killing imported or Native game, nor shall live decoys be used for such purpose.

# An Historical Hotel

---

NO history of the early settlement of Port Nicholson can be written without making some reference—very early—to **BARRETT'S HOTEL**, one of the first and certainly the best known hotels of the early days. It was built originally by Richard Barrett (whose name is perpetuated in Barrett's Reef, in the harbour of Port Nicholson), on the block of land on which part of the Hotel Cecil now stands, and was the first Native lease held in the City of Wellington. In a letter dated 4th June, 1842, from Mr. Halswell, Commissioner for the Management of Native Reserves, we note :—A part of the town acre, No. 514 on the surveyor's plan, on which Barrett's Hotel now stands, has been let on lease to Richard Barrett for seven years, the term limited by the Governor, at the yearly rent of £54 5s., being at the rate of 5s. per foot for that frontage upon which the house actually stands, and 20s. per foot for some ground adjoining, the depth 100ft.

We have it on record that it was in this building that our pioneers met for the first selection of town sections.

The first public dinner held in Wellington was to celebrate the opening of this hotel on Thursday, 22nd October, 1840.

## 30 - inch Circle—Distance 40 yards

The above illustration—traced from actual photograph—shows pattern of Gun and Cartridge, both made throughout by "C.A.C."  
The Circle is 30-inch; Gun fired at a distance of 40 yards.

**The Gun** was a C.A.C. Pigeon Gun with double-barrel, hammerless ejector, 12 bore, square cross bolt and side clips.

**The Cartridge** was a C.A.C.  $2\frac{1}{4}$ -inch "Favourite," with 1 1-16 ounces of C.A.C. Chilled Shot.

This picture is an actual demonstration of the quality of C.A.C. Sporting Cartridges. They are unrivalled for Accuracy and Penetration—get the right "pattern" every time.

Use the deadly "Favourite"; or, if a slightly lighter loading is required, the "Nitro-Special."

Order from a local dealer; if he is not stocked, write us and we will see you are supplied.

\*Dates of seasons, etc., are liable to be altered from time to time. †Not more than one license to be issued to any one person.

NOTE.—Sportsmen are recommended to use soft-nosed bullets for deer. Hinds and does are absolutely protected, except in the Counties of Featherston and Wairarapa South (Wellington). No person may export stags' heads from New Zealand without first obtaining permission from the Minister of Internal Affairs. Applications for such permission should state the number of points on each head, the locality where shot, and whether the heads are for sale.

Deer Tags.—A tag for each head shall be issued with the license, and one such tag must be affixed securely by the licensee to the head of each deer killed by him, and kept so affixed.

# For MEN who love SPORT in the OPEN AIR!

WHAT can equal a tramp through the country with a good dog—or a day's shooting on the lake? The crisp report of the gun—the exultation of a well-placed shot—the sun and wind—the healthy exercise—Such is the sport of men who go out with a shotgun.

We have a large assortment of Single and Double Barrel Guns, both Hammer and Hammerless, in various gauges.

Ammunition of all kinds.

Inspection welcomed at all times.

### Maori Antiquities.

Attention is drawn to the fact that it is not lawful to remove from the Dominion any Maori antiquity without first obtaining permission in writing from the Minister of Internal Affairs, and, before such permission is granted, it is necessary that the article or articles be offered for sale to the Government Purchase Officer for the benefit of the Dominion. Any antiquity entered for export contrary to the above regulations is liable to forfeiture, and shall vest in His Majesty for the use of the people of New Zealand, besides which the exporter is liable to a fine not exceeding one hundred pounds.

Notice of the intention to export any Maori antiquity shall be given by the exporter to the Collector or other proper officer of Customs at least twenty-four hours before shipment.

The term "Maori Antiquity" includes Maori relics, articles manufactured with ancient Maori tools and according to Maori methods, and all other articles or things of historical or scientific value or interest and relating to New Zealand, but does not include any botanical or mineral collections or specimens.

### Coaching Hints for Tourists.

When booking box-seats by telegraph or letter pay for a reply, so as to get acknowledgment that box-seats will be reserved.

Mail-coach Contractors have the right to make a maximum charge for box-seats as under:—

For a complete journey of eight hours or over ... .. 5s.

For journeys of less than eight hours ... .. 2s. 6d.

It is stipulated that Contractors shall allot box-seats in order of application.

Take waterproofs or macintoshes on box-seat, so that in the event of rain there will be no delay in unpacking luggage to obtain them.

Dust-cloaks are necessary in fine weather.

Passengers should not talk to coach or motor-drivers when passing critical places, as the whole of their attention is required for their work.

Take only such luggage as is absolutely necessary.

### Customs.

The following items appear in the list of exemptions from duty under the Customs Tariff:—

"Passengers' baggage and effects, including only wearing apparel and other personal effects that have been worn or are in use by persons arriving in New Zealand; also implements, instruments, and tools of trade, occupation, or employment, of such persons, not exceeding £100 in value, and household or other effects which have been in use for twelve months prior to embarkation by the persons or families bringing them to New Zealand, and which are not intended for any other person or persons, or for sale, not exceeding in value £100 for each adult passenger and £50 for each child, provided that the total value of household or other effects so imported does not exceed in value £300 for the members of any one family; also cabin furnishings belonging to each of such persons not exceeding £10 in value.

"If imported within two years of the arrival in New Zealand of the person or families by whom they have been used."

If such goods are imported more than two years after the arrival of the person or families by whom they have been used, they will be subject to such conditions as may be imposed by the Minister of Customs.

BEAUTIFUL WESTLAND

300 Miles (Return) of Motoring through Beautiful Westland Scenery and Lakes.

The Scenery on these runs is magnificent, taking you through most glorious bush and fern country, passing for miles along the banks of
Lakes Ianthe, Waihapu and Mapourika.

Leaving Otira, one meets magnificent scenery at every turn; now the rugged mountains covered with dense forest, and in Summer aflame with rata blossoms: then the glittering lakes at the roadside, reflecting distant snow-clad mountain peaks everywhere—something that will for ever linger in the memory. One experiences a series of delights throughout the whole journey until at length the Glacier Hotel at the Waiho Gorge is reached, and only a walk of about two miles brings the visitor to the Franz Josef Ice Face. Guides and Equipment are supplied at a nominal charge.

The wonderful hot springs near-by supply good water for those wishing to take advantage of same, and the short walks through the fern and bush are thoroughly enjoyed by all.

Our Cars are also available for short local runs, Lake Kanieri, Hokitika Gorge, Mount Misery (lookout), etc. Special Cars can also be arranged for trips to and from Christchurch, or any other part of the South Island.

Superb Scenic Motor Run to Karamea

VISITORS TO WESTPORT should follow up the delightful trip through the Buller Gorge with a run over the bush-clad range to Karamea, a distance of sixty-one miles. The route leads past the coal-mining townships to Mōkihinui, where the road enters the hills, and the motor starts on its six-mile climb through magnificent native bush up to the White Bluffs about 1200ft above sea-level; whence a view unequalled in New Zealand is obtained, the blue of the seascape on the one hand, combined with the vivid colouring of the mountain verdure and the sweep of river far below, making a scene never to be forgotten. In the distance is seen the mining township of Stockton nestling in the hilltops, whilst from a distant valley beneath rises a blue wreath of smoke from a mine which has been burning for over twenty years. Passing on, the traveller is presented with an ever-changing vista of Nature's art, an occasional clearing showing where some pioneer is breaking in a home. After crossing the Little Wanganui and Karamea Rivers the latter being negotiated by a punt, Karamea is reached, where a choice of accommodation may be obtained. The visitor is free to return the following morning or stay over for three days and explore the varied attractions of the district.

These include:—

TROUT-FISHING IN THE RIVER, FISHING IN THE HARBOUR, SHOOTING, INCLUDING DEERSTALKING (in season),

and visits to the beautiful Limestone Caves of Oparara, or the wild grandeur of the Karamea Gorge. Excellent surf-bathing may be had on the Kongahu Beach, about four miles from the Township, and the District abounds in delightful picnicking resorts.

MOTOR-MAIL and PASSENGER SERVICE LEAVES WESTPORT for KARAMEA at 9 a.m. MONDAYS and THURSDAYS; leaves KARAMEA for WESTPORT TUESDAYS and FRIDAYS.
